

Reference Letter

Subject: Reference for **Hardik Pandey** Threat Intelligence Analyst

To Whom It May Concern,

Hardik Pandey was employed by **VANKADEL** as a Threat Intelligence Analyst.

Regarding his technical capabilities, was able to perform the core duties of the role. He possesses the necessary skills to analyze threat data and completed the technical tasks assigned to him during his tenure.

However, I would note that his communication skills regarding project management require improvement. During his time with us, he struggled to proactively inform management when his workload was at capacity, which impacted his ability to meet project deadlines.

To ensure his success in future roles, he requires a management structure that enforces frequent status updates and strictly monitors project timelines, as he is unlikely to flag delays on his own.

Sincerely,

Krisztian Buda

Head of Teams

VANKADEL
